Akruti™   Publisher

DTP and Printing Industry composing/publishing package

Cyberscape Multimedia Limited has a core competence in developing multilingual enabling system software like fonts, drivers and SDKs to enable office automation and business applications to work in non-English languages. These are available as branded products under the brand name "**AKRUTI**" meaning "shape or figure" in Sanskrit. The current versions work for the Windows platform for Win XP/2K/NT and Win 95/98 flavors. Work is underway to extend it for the Linux platform. Currently all the 10 Indian scripts have been developed covering the 14 major languages of India. The same technology may be extended to any non-English

Akruti Publisher is a multi-purpose DTP software which enables the printing\publishing industry to use Indian script on the computers. **Akruti Publisher** is available in all Indian languages - Hindi, Marathi, Gujarati, Sanskrit, Kannada, Tamil, Telugu, Malayalam, Bengali, Assamese, Oriya, Punjabi and Roman. It has a number of popular keyboard layouts to choose from including English Phonetic, In-Script (a Government of India - BIS standard), Typewriter, and many more DTP Layouts. **Akruti Publisher** is ideal for range of users covering DTP segments, printers, publishers, newspapers, writers, in-house magazines, ad agencies, broadcasting media and virtually every industry which use Indian languages for printing/publishing purpose.

Akruti is a software that enables indian languages in any MS Windows based application. Akruti works seamlessly with MS Office, Lotus Smart Suite, Pagemaker, Photoshop, CorelDraw, Quark xpress, Ventura, Paint Brush and many other popular programs. Akruti can be used to develop applications in VB, VC++, Delphi, Power Builder, Visual Fox Pro & other programming tools. Akruti enables the data to be stored and retrieved from popular database like MS Access, Fox Pro, MS SQL, Oracle, SQL Anywhere, Sybase, MSDE and others. Subtitling of films and online TV programmes can also be done in hindi and indian languages with the same ease as in English.

Akruti Publisher has large collection of Cliparts which includes B&W art images as well as High-resolution colour images. Akruti Publisher provides dictionary to search any word or phrase. Akruti Publisher provides a unique
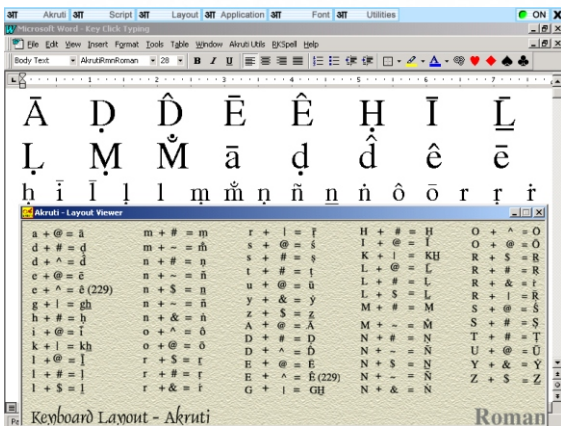

शब्द एक भाषा अनेक
